

**ROCK-LESS**  
**EROSION CONTROL**  
**FOR SOLAR FARMS**

**DON'T LET  
YOUR ASSETS  
WASH AWAY!**

**InstaTurf® secures and protects the ground under  
and around your solar installations**

## HYBRID TURF INSTANT ARMOR MATS

Easy to install, easy to maintain, multiple uses...ongoing protection.

### DRIP LINES

Prevents rill and gully formation on hillside installations.

### UNDER PANELS

Protects soil around rack uprights, with or without vegetation.

### SWALES / CHANNELS

Shields against scour and promotes reinforced vegetation establishment.

### PONDS / LAKES

Stabilizes banks against wave action and water level fluctuations.

# OUR PATENT-PENDING EROSION CONTROL PRODUCTS ARE **UNLIKE** ANYTHING ELSE ON THE MARKET

## BENEFITS OF INSTATURF®

- Permanent, rock-like erosion protection, at less than half the cost of riprap
- Reduces dust collection on panels for unimpeded energy production
- Ensures stability of rack uprights
- Prevents costly erosion damage to drainage infrastructure
- Provides an immediately green, grass-like appearance for improved aesthetics
- Enables compliance with governmental stormwater discharge regulations
- Simple, heavy equipment-free installation, just apply seed to prepared soil and install matting on top
- Easy maintenance, simply mow or spray over once naturally vegetated

**TWO  
PRODUCTS  
AVAILABLE**

**SHEARFORCE™ 10**

3' x 45' 50lb rolls. 6' x 45' 100lb rolls.

**SHEAR FORCE™ 12**

3' x 4' 30lb panels.

## APPLY INSTATURF FOR PERMANENT EROSION CONTROL IN THESE AREAS:

- Beneath ground-mounted solar panels • Under drip lines • At outfall areas
- In drainage swales / channels • Around retention ponds
